

PT5000 motorized Pull Tester

Making your work easy

573 Route 30, Imperial, Pennsylvania

Tel: 724-695-2829

e-mail: support@cs-technologies.com
web page: www.cs-technologies.com

3 Test Modes

- Pull to break
- Pull to defined force and hold force (5 min. max.)
- Pull to defined force and release

Specifications

- Max pull force: 5000 N (1125 lbs.)
- Overload stop at 5500 N (1230 lbs.)
- Pull speed: 25-300 mm/min (1-12 inch/min)
- Resolution (force/position): 0.1N/0.01mm
- Measurement error: <0.5% F.S.
- Power supply 100-240 VAC 50/60 Hz
- Power consumption: Max 500 Watts
- Dimensions: 790 X 370 X 350 mm
- Weight: 60 Kg
- USB port for memory stick
- Color touch panel
- Force vs Position curve display
- Database with pull force specs
- Statistical calculations
- Finger print reader for user ID

Wheel with slots for various terminals
